

## Magnetic Car Charger

### 1. Product Overview

- Input: Type C, 9V 2A
- Output: 15W / 10W / 7.5W / 5W
- Design: MagSafe Design

This magnetic car charger is designed to provide fast and efficient charging for your devices while driving. Its MagSafe design ensures a secure connection to your device.

### 2. Features

- Fast Charging: Multiple output levels (15W / 10W / 7.5W / 5W) to suit different devices.
- MagSafe Design: Ensures a secure and stable connection while driving.
- Type C Input: Efficient and versatile power input with Type C connector.

### 3. Package Contents

- 1 x Magnetic Car Charger

### 4. Installation Instructions

#### Setting Up the Charger

1. Connect to Power Source:
  - Plug the USB Type C cable into the car charger.

- Connect the other end of the cable to your car's USB port or cigarette lighter adapter with a compatible power adapter.
2. Place the Charger:
  - Attach the magnetic car charger to a suitable position in your car, ensuring it is within easy reach and does not obstruct your view or driving.

#### Using the Charger

1. Attach Your Device:
  - Align your device with the magnetic charger. The MagSafe design will securely hold your device in place.
  - Ensure that your device is properly aligned to achieve optimal charging efficiency.
2. Monitor Charging:
  - The charger will automatically detect the appropriate output level for your device (15W / 10W / 7.5W / 5W).
  - Check your device's screen to ensure it is charging.

### 5. Safety Information

- Use Proper Adapters: Only use the provided USB Type C cable and compatible power adapters.
- Avoid Extreme Temperatures: Do not expose the charger to extreme heat or cold.
- Do Not Disassemble: Do not attempt to disassemble or modify the charger.
- Keep Away from Water: Avoid contact with water or other liquids.

## 6. Maintenance and Care

- **Cleaning:** Wipe the charger with a dry, soft cloth. Do not use harsh chemicals or abrasive materials.
- **Storage:** When not in use, store the charger in a cool, dry place.

## 7. Troubleshooting

- **Not Charging:** Ensure the charger is properly connected to the power source and your device is aligned with the MagSafe charger.
- **Slow Charging:** Check the power source and ensure it provides sufficient power output (9V 2A).
